FAR Roof Coatings

FLUID APPLIED ROOFING

Don't replace your roof, restore it!

CERTIFIED FAR CONTRACTOR
FINANCING AVAILABLE

How it goes on

1

Prep and repair

We clean, prime, and seal problem spots with FAR's fiber-infused sealants.

2

Reinforced base

FiberSeal Base seals seams and bridges gaps. No fabric or seam tape.

3

Finish coat

A bright, reflective white finish coat completes one seamless membrane.

Why restore instead of replace

No tear-off

Your roof stays put and your business stays open.

Seamless protection

One continuous membrane over the seams, gaps, and penetrations where roofs fail.

Lower energy bills

The reflective finish lowers roof temperatures by 50 to 80°F, cutting cooling costs.

Easier on the budget

Costs less than a tear-off, and may count as a maintenance expense. Ask your tax advisor.

Works over: metal, built-up, single-ply membrane, rolled roofing, and mod-bit roofs.

Warranty: 10 to 20 years depending on the system, documented in writing.

Down the road: recoat just the top coat in 15 to 20 years. No tear-off, far less cost.

Award-winning coatings

FAR's FiberSeal Base: IRE People's Choice Award for Coatings, 2025 & 2026

HOW IT'S BUILT

Inside a FAR Restoration

Built right on top of the roof you already have.

The layers

Finish coat

Polyurethane-acrylic, reflective

FiberSeal Base

Fiber-reinforced; seals seams, gaps

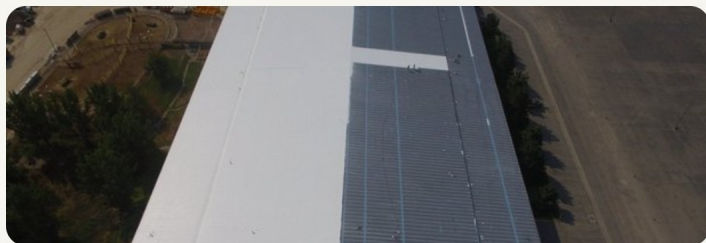

Primer

Preps the surface so the system bonds

Existing roof

Metal, BUR, mod-bit, single-ply, rolled

Ford Idaho Center: during and after

During: coated on the left, seams sealed on the right.

After: the full roof restored and bright white.

"Very efficient and professional! They did an amazing job restoring the metal roof on my library!"

Sarah Bridges

A family business, built on hard work

Every roof gets a custom solution. We outwork the competition and do it all: from inspections and repairs to restorations and replacements. Founder Michael Mast owns High Country, his brother David runs our projects, and his nephew Derek handles sales. With Amish roots and 50+ years of combined experience, we bring quality workmanship and creative problem-solving to every project.

- ✓ Family owned and operated
